

MALAHAKAM

Malahakam is the DJ project of Rachael Fox Feather based in Colorado, USA. She weaves a numinous sonic field featuring tribal ethnic and psychedelic influences, organic sounds, ethereal melodies, mystical overtones and liberating frequencies - inviting us to heal and explore with curiosity the landscapes of our dreams through movement and dance. Her love for nature, ancient wisdom traditions, and feminine energy carries through into her curated sets to guide you through deep journeys of the archetypal stories we live as spiritual beings sharing a human experience. By cultivating sacred space with musical vibrations and deep prayer Malahakam sets the stage for dancing our dreams into lucidity.

Originally approaching music as a sound healer and avid student of sound therapy, Rachael began her journey as a DJ in 2016 when she was invited by Heartbeat Ecstatic Dance in Mt. Shasta, California to join their collective as a resident DJ. Having always had a deep passion for music she naturally excelled within the craft and went on to share live mixes for local intentional dance events and private gatherings. After moving to the high mountains of Crestone, Colorado she led a bi-weekly ecstatic dance, Dance Sangha, and continued to share music for community events and parties. In 2019 she expanded her influence and was invited to DJ at Denver's Howl at the Moon Gatherings, Arise Festival (CO), Native Circuit Family Gathering (NM), Tribal Visions Festival (NM), and 3 Sided Whole Festival (NM). In 2020 she was invited to DJ her first international festival at Panama's Tribal Gathering and became an ambassador for Denver's infamous Rhythm Sanctuary ecstatic dance community.
